Surfers Beach Pilot Restoration Project

Bid Addendum #2

Changes to Bid Form

- 1. REPLACE the Bid Form with the attached updated Bid Form. Note the quantity and units for Bid Item No. 5 Eelgrass Transplanting have been modified per Item 2 below.

Changes to Specifications

Changes to specifications are as follows. Additions are noted in **bold and underline**, and deletions by ~~strikeout~~.

Section 32 90 00 Eelgrass Transplanting

- 2. Modify quantities in Paragraph 1.01 D "Summary" to read:

D. For bidding purposes, the Contractor shall assume the amount of eelgrass transplanting will be:

Transplant From	Transplant To	<u>Eelgrass Bundles</u> Required Area (square meters)
Eelgrass Mitigation Area	Secondary Transplant sites	<u>800</u> 928
Area 2	Eelgrass Mitigation Area	<u>5,000</u> 462
Total		<u>5,800</u> 1490

Section 31 23 00 Dredge and Fill

- 3. Modify Paragraph 3.09 F. "Tolerances and Acceptance" to read:

~~“F. The project may not be accepted as complete if finished grade is outside the limits of these tolerances, and/or does not conform to the shapes and slopes indicated in the Drawings. The District may require the Contractor **shall** to conduct additional work at his expense to **shape the complete excavation and fill** to the lines and grades indicated, within these tolerances, **as feasible**, and associated surveying to demonstrate conformance with the desired finished grades. **Otherwise, the District may elect to make payment deductions for fill placed outside of tolerances, as described in Paragraph 4.01 C.3 below.**”~~

4. Modify Paragraphs 3.09 H. “Tolerances and Acceptance” to read:
“ H. ~~Surfers Beach~~ Fill Placement Areas: See below for payment deductions for fill placed outside of vertical or horizontal tolerances.”

5. Modify Paragraph 4.01 C “Measurement” to read:
“C. No payment will be made for:
 1. Dredging below over-dredge limit (below elevation -10 ft NAVD)
 2. Dredging outside of horizontal dredge area limits
 3. Associated fill placement that does not meet design grades within tolerance. At the District’s option, **up to** 50% of the volume of fill placed outside of vertical or horizontal tolerances may be deducted from the dredging pay volume. **The District’s decision whether to make pay deductions will be based on the Contractor’s performance and efforts to comply with fill placement requirements.**”
