Members of the San Mateo County Harbor District Board of Harbor Commissioners

Re: Comment on Agenda Item G3 “Pillar Point Surfers Beach Safe Parking Project”

Dear Harbor Commissioners Slater-Carter, Domurat, Mattusch, Zemke, and Chang Kiraly:

I appreciate the opportunity to comment on Agenda Item G3 (Pillar Point Surfers Beach Safe Parking Project). The Harbor District staff report recommends the following motion:

“The preferred option for the Pillar Point Surfers Beach Safe Parking Project is Option 4 located on the Launch Ramp Properties, APNs of 047-252-390, 047-252-360, 047-252-220, 047-252-230, and 047-252-240.”

My comment is that after approximately 1 year of pursuing Option 2 or 3 (Burnham Strip Parking Lot) where much public input was received, the Harbor District now seeks to pursue Option 4 with very little input from the public. Indeed, Option 4 was only introduced informally and without any documentation at the public listening session on October 27, 2025. Now, less than one month later, the Harbor District seeks to formally commit to Option 4.

The public needs more time to understand the details of Option 4 and its potential environmental impacts. I would therefore ask the Harbor Commission to postpone voting on the recommended motion to allow the public more time to study Option 4 and to provide more input to the Harbor District on how Option 4 may impact the surrounding areas. This is simply good governance

Sincerely,

/s/

Kevin J. Lansing
