Text msg from Todd Korth concerning the December 18, 2024 Agenda.

"I don't understand. I just read the agenda for tomorrow's meeting. You folks won't allow public comment unless someone physically attends. How can any working person attend a 10 am meeting? I am further astonished that the harbor is trying to build a parking lot in the center east of Highway 1. The strip just north of it is protected. The commission/county government is out of control. Sorry Jim. I like you personally very much. However, the recent moves of the harbor are ill advised."
